DETAILED ACTION

1. This Office Action is in response to Applicant's Amendment filed December 23, 2008. Claims 1, 7, 11, 13-15, 18-19 have been amended. Claims 20 and 21 have been added. Claim 2 was previously canceled. Currently, claims 1 and 3-21 are pending.
2. Applicant's arguments, see pages 8 and 9, have been fully considered and are persuasive. The rejections of claims 1, 14, and 15 have been withdrawn.

Allowable Subject Matter

3. Claims 1 and 3-21 are allowed.
4. The following is an examiner's statement of reasons for allowance: Prior art does recognize reducing a fluctuating component of the background by converting a current associated with a particle/radiation detection to a voltage and then passing the voltage through a threshold that distinguishes the voltage above or below a given value (see Arqués, US 2004/0245468). However prior art of record does not further teach or suggest that the voltage, after passing through the threshold, become a treated voltage signal that is associated with a treated current and an integrator for measuring the total charge of the treated current.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
